

Welcome to The Great Indoors...

www.indoors.ie

Doors that create the personal spaces
for Living, Working, Learning, Playing and Resting.

indoors
BY B&G

open the doors to your imagination...

The beauty and finish of **quality doors sets the tone** for every room in your home.

They are unique, the one piece of furniture that travels through your entire home, room by room. From **joining styles, generating atmospheres and creating moments;** for your favourite relaxing space, the buzz of the dining room, to opening up or creating a cosy atmosphere after a long day..

Quality doors well chosen for style, create an atmosphere that evolves over time. **Season by season, they add new character to rooms ever changing.**

The Indoors range has been carefully **curated over 40 years** of Irish consumer research.

From solid timber, where the rich texture of the wood alone is the styling you require, to the primed for easy painting - **the range is balanced to suit style and budget.**

From **Georgian heritage** and **contemporary American** to **Scandinavian** and **trend setting Italian** styles, all blend into this seasons collection.

INDOORS ENDURE.

OUR SUSTAINABLE PROMISE

The team at B&G are committed to a greener, more sustainable environment and continue to evolve our business practices, product selection and carbon output in this regard.

SLIDE OR HIDE

SLIDING DOOR RAIL KIT

The Indoors Aluminium sliding door kit is the latest trend for home owners keen on "space saving". Our aluminium sliding door kit can be used for both Pocket Doors (hidden from view, where doors slide into the wall) and wall mounted sliding door systems (the kit is visibly mounted above the door opening) Its unique wheel and track system ensures the highest quality movement on the market. It comes with an optional soft close feature. For double door specifications, two kits will be required. Each Kit is 2m long and can hold a maximum weight of 100kg, Suitable for all doors between 18-44mm (thickness).

VIEWING FRANKLIN 3 PANEL

Our Loft Sliding Door Kit is a styling statement in itself. Designed to carry a single door, both door and kit combine visual aesthetics with functional space saving, ideal for the modern house or apartment. With smooth movement, it is suitable for all doors within the Indoors collection. Each Kit is 2m long and can hold a maximum weight of 100kg, Suitable for all doors up to 50mm (thickness). See page 78 for details on our Sliding rail Kits and Accessories.

VIEWING CAMDEN FRAMED L&B

create personal spaces...

the best light is natural light

Reduce your artificial lighting requirements and save energy

Exposure to daylight has been linked to improvements in our wellbeing and mood, and in the home, natural light can make a room lighter and brighter and give the feeling of more space.

If you want to flood your home with natural light, our glazed doors are an ideal solution.

PANEL

BOLECTION DOORS

If you are looking to add some eye-catching decoration to your home, we think Bolection doors are a great place to start. Originally a Georgian period style from the early 1700's, this door with its raised mouldings has been refined over the years to allow seamless integration with traditional and modern homes.

CLASSIC

We are excited to bring you new glazed styles from our classic collection. Maximising the potential of natural light within the home through the use of glass is a fundamental idea within the interior design world.

Opting for one of our Classic Glazed doors with their beautiful detailing adds character to the essence of a room and creates areas that feel more spacious and less enclosed. Ideal for any style of home, these doors will really stand the test of time.

FIRE DOORS

Your door can be your greatest friend in times of emergency. Our Fire Door collection is designed and tested to keep you safe when the situation demands it. Solid, easy to maintain and well styled we recommend making this an essential part of your door selection. All our fire doors are independently tested and certified with audits regularly carried out at place of manufacture that cover design, performance and quality assurance. Always refer to relevant fire door certificates for full instructions on installation and compliance.

Our premium moulded fire door range is an exquisite collection of finely detailed moulded panel doors in both classic and contemporary styles. The smooth finish gives a sleek modern look and feel.

SLIDEFOLD

WHITE FINESSE

- Engineered construction for additional stability
- Available in Pre Finished White or Unfinished Oak veneered surface
- All Doors are 40mm thick
- Each Set supplied with doors, frame, seals, folding hardware and mortice lock.
- Glass is tempered safety glass & complies with BSEN12150/12600

The sets can be fitted to open into or out from the room of your choice, and opening from left to right or from right to left. All sets are 2074mm high, outer frame dimension. Each door is 40mm thick and the frames size is 110mm.

Size Guide

All sets are 2074mm high, outer frame dimension. The sets are available in 4 different sizes.

Outer Frame Width

1790mm	2390mm
2090mm	2990mm

The slidefold finesse door is a unique folding, sliding door system that provides a combination of quality, design, technology and affordability and has taken the market by storm. The doors are based on our highly successful and extremely popular external, sliding, folding door sets.

OAK FINESSE

The Finesse internal folding sliding door and room divider brings elegance and beauty to the inside of your home, giving you the option of bright open spaces when open, and cosy rooms when closed.

Finesse has a top-hung roller system for a smooth fingertip opening and closing action.

Consisting of a single glass pane of toughened safety glass, the Finesse room divider is totally reversible for left or right opening without having to specify on the order. There is a daily access door for ease of entry and exit without having to open the whole of the set.

Special seals keep the draughts out.

Slide bolts are included to keep the doors closed and in line

Our internal doors are the first in Ireland with completely premachined frames for easy assembly.

Your flooring butts up neatly to the oak sill, which has a special aluminium sub sill for easy fitting and extra strength

Simple to install, each Finesse internal folding sliding door set includes doors, frames, top quality aluminium - folding hardware, tracks, and easy-to-follow assembly and installation instructions. Door handle is not supplied so you can acquire one that matches your other internal door handles.

SLIDEFOLD

INTERIOR INSPIRE

SlideFold Inspire folding doors are a totally new and unique concept in internal folding room dividers. It offers simplicity, flexibility and stunning good looks simply not available from any other manufacturer.

SlideFold Inspire 8ft and 9ft have four doors, with the two centre doors opening individually or together, for daily access between the rooms.

Then by simply unlocking the top slide bolts the doors can be folded to the left and the right and then easily fold back against the wall to provide full open access between the two rooms. The 6ft and 7ft sets have three doors only, the 4ft and 5ft set have 2 doors only.

Size Guide

All sets are 2007mm high, outer frame dimension. The sets are available in 6 different sizes.

Outer Frame Width

1190mm	2090mm
1490mm	2390mm
1790mm	2690mm

Simple Engineered construction for additional stability. Unfinished Oak veneered surface. All Doors are 40mm thick. Each Set supplied with doors, frame, seals, folding hardware and mortice lock. Glass is tempered safety glass & complies with BSEN12150/12600

INTERIOR

SLIDING DOOR RAIL KIT

The Indoors Aluminium sliding door kit is the latest trend for home owners keen on "space saving". Our aluminium sliding door kit can be used for both Pocket Doors (hidden from view, where doors slide into the wall) and wall mounted sliding door systems (the kit is visibly mounted above the door opening) Its unique wheel and track system ensures the highest quality movement on the market. It comes with an optional soft close feature. For double door specifications, two kits will be required. Each Kit is 2m long and can hold a maximum weight of 100kg, Suitable for all doors between 18-44mm (thickness). See page 78 for details on our Sliding rail Kits and Accessories.

HOTSTUFF!

RADIATOR COVERS

The radiator cover collection from Tema aims to bring style and elegance to your home. Our radiator covers are effortless both in aesthetic and build, you can upgrade the look of your home by turning your radiator into a perfect piece of furniture for your living space that can be assembled in minutes!

What Tema radiator covers promise to deliver:

- Our radiators covers are designed to allow heat to flow freely
- Protect infants from dangerous hot surfaces
- Conceal unsightly radiators and provide a new piece of furniture for your home
- Can be used as a stand alone piece of decorative furniture where no radiator is present.
- Assemble within minutes and without professional help

To view the full collection, please visit us at www.bghome.ie

TO ENSURE THAT YOUR DOORS LOOK AND PERFORM TO THE HIGHEST STANDARDS, Please Follow These Care And Installation Guidelines:

WHEN YOU RECEIVE YOUR DOORS

You should check each door thoroughly to ensure it is in perfect condition and have not been damaged during transit or storage and report any problems immediately. Always use 2 people when lifting doors and lift by the edges and not by the glazing bars or panels. Allow your doors at least 7 days to acclimatise to the room where they will be fitted. Store them at normal room temperature (about 20 degrees) lying FLAT on 3 battens to allow the air to circulate. Ensure the room is dry and well ventilated.

TEMPERATURE & HUMIDITY

All timber naturally expands when it absorbs moisture, and contracts when it dries. It is vitally important that your doors are protected from extremes of heat and humidity. Never fit or store doors in a newly plastered room or building. Please allow at least three months to ensure the rooms have been heated and dried thoroughly. We recommend that rooms are maintained between 18 - 20 degrees Celsius and between 40% - 60% humidity. Extremes of heat, dryness or humidity can cause cracking or warping. If under-floor heating is installed, it is recommended that it is not kept at a high setting for prolonged periods and at least 3 coats of sealer are applied on the bottom edge of each door.

UNFINISHED DOORS - SEAL BEFORE HANGING

You must not hang unfinished doors without fully sealing all surfaces, edges & cut-outs. It is very important that end grain on the top and bottom edges of the door is fully sealed as

this is where moisture can most easily enter the door. Failure to properly seal the door can result in swelling, twisting, bowing, de-lamination or cracking. These problems may occur immediately or over a prolonged period depending on the conditions. We recommend that 2 coats of solvent based sealer are used. In areas such as bathrooms, kitchens and hot presses, where variations in humidity are likely, we recommend an extra coat of sealer. Water based finishes are NOT suitable for sealing wooden doors and base coat stains or primers are not considered to be an adequate sealant.

PRIMED/PRE-FINISHED DOORS - RESEAL AFTER ALTERING

Primed or Pre-Finished doors are already fully sealed. It is important however, to re-seal all exposed surfaces after trimming or cutting out for locks and hinges. Handle pre-finished doors with extreme care to ensure the surface is not damaged in any way. Doors should not be laid on their side or edge without protecting the surface with cardboard.

ALL PRE-GLAZED DOORS FITTED WITH SAFETY GLASS

For your safety, all our pre-glazed doors use toughened or laminated glass. Take care to avoid any impact to glass when hanging or fitting the hardware. For a superior finish, some of our Pre-Glazed doors may be glazed using the Cassette Glazing System and cannot be replaced. Glass should be checked thoroughly in daylight before hanging and any defects reported immediately.

GLASS MAINTENANCE

Glass may be cleaned using a soft damp cloth. Do not use any abrasives or cleaning fluids. Care should be taken when cleaning leaded or screen printed glass as excessive cleaning can damage or remove the finish.

INSTALLING YOUR DOOR

Before you start, inspect your doors thoroughly on all sides. Any roughness or slight gaps on unfinished or primed doors can simply be rectified by light sanding. Wood filler may be used if necessary to achieve a perfect finish. If you need to trim the door, reduce equally on both sides by no more than 5mm. The top and bottom of the door should not be reduced by more than 10mm to maintain the proportions and stability of the door. Do not fit locks where the stile meets the mid-rail, as this could weaken the door joints. Keep the lock cavity to a minimum. Locks etc. must be installed before hanging the door and always use 3 hinges. Care should be taken to ensure hinges are fitted in perfect alignment.

If you need to rebate your doors, you should check the individual door specifications before rebating as not all doors are suitable for rebating. Rebate strips are available to suit most doors

FINAL FINISHING (UNFINISHED DOORS ONLY)

When the sealed door is hung, it should be finished immediately with a good, oil based paint or varnish treatment. Always follow the manufacturers' instructions for the paint stain

or varnish to be used. All surfaces of the door must be treated at the same time to prevent moisture imbalance, do not finish one side of the door only.

CARE AND MAINTENANCE

Regular care and maintenance will enhance the appearance and pro-long the life of your doors. Annual inspection and touch ups will prevent any breakdown of the finish and also protects the timber from deterioration. Panels are floating and can expand or contract to allow for variations in temperature. This can occasionally expose paint lines along the edges. This is not a fault and can easily be sanded and refinished. Regularly clean glass with warm, soapy water. Avoid using abrasives or excessive scrubbing as this may cause scratches or remove designs.

LIMITED 12 MONTH GUARANTEE ON INDOORS

All Indoors Products are guaranteed against any manufacturing faults or defects for a period of 12 months from date of purchase. For our guarantee to be valid, all of the above guide-lines must be followed. Timber is a naturally grown product which makes every door unique as such there can be a certain amount of colour variation in the timber or the veneer. Uniformity of grain or knots cannot be guaranteed. In the event that there is any defect in the product arising from manufacture or materials, we will immediately replace or refund the door, however no liability can be accepted for any other consequential costs such as painting, storage or installation.
